(970)430-8039 - DustinBosveld@gmail.com

Profile:

«««< HEAD I'm passionate about: excellence, learning, and launching people to reach their full potential (leadership). Quite a long time ago, I was thinking about the phrase 'work smarter, not harder'. I decided it was a better idea to adopt the approach of 'work smarter and harder'. I will not half do a job and I intend on getting things right the first time, or learn how to do things correctly the next time I'm in a similar situation. I enjoy taking on challenging projects to expand my skill set. I also really like solving problems. Additionally, I have a really good memory and can remember nearly everything I learn. I spent over three years learning how to effectively lead people and have actively been in a leadership role on the job since June 2017. By doing things in excellence and developing people I intend to change the world around me.

Experience:

Team Lead: RGIS, March 2017 - Present

- Effectively lead teams of 3-50 people in providing accurate and efficient inventory service
-

Diligently work ot provide reliable inventory figures to clients

I'm passionate about: excellence, learning, and launching people to reach their full potential. I will not half do a job and I insist on doing things right the first time. I am constantly learning new skills. And, most importantly, I constantly work to promote people to their full potential.
